Hi Scott,  
Does the mention below mean that Kyle stepping away from working with Dam Nation? The NCAA concern is that, through his duties contracting with OSU, recruit names will be shared from coaches. From what I've heard, NCAA publicity restrictions prohibiting institutional staff from sharing recruit names with collectives will remain in place should the House settlement be adopted.

If Kyle is not simultaneously operational with Dam Nation, though, there is not the same level of NCAA risk here.

Thanks for the help,
